EXPERIENCE

Senior Front-end Software Engineer

EZ Digital (Los Angeles, California, United States · Remote)

June 2022 - Present

- Stack:** JavaScript, React.js, Next.js, Node.js, Express.js, TypeScript, AWS (EC2, DynamoDB, S3, Lambda, CloudFront, Route 53, CloudWatch, IAM, CodeCommit), Microservices architecture, Chakra UI, CI/CD, SDLC, Jest, Enzyme, React Testing Library, Supertest, Cypress, Agile, Scrum
- Led the architecture and development of a bespoke React + Node.js builder and content management system from the ground up.
- Innovated by creating reusable and modular frontend components, streamlining frontend development and reducing development time by 25%.
- Designed and implemented a scalable and efficient backend architecture API using Node.js and related technologies. This optimization led to a 50% reduction in server response times and improved system reliability.

Middle Front-end Software Engineer

EZ Digital (Los Angeles, California, United States · Remote)

July 2021 - June 2022

- Stack:** JavaScript, React.js, Next.js, TypeScript, WordPress Headless, Strapi, Docker, Tailwind CSS, Cross-browser, PixelPerfect Markup and Mobile-first, SEO, Schema.org, Accessibility, WCAG 2.0, CI/CD, SDLC, Jest, Cypress, Agile, Scrum, GitLab, Hubspot
- Crafted visually appealing pixel-perfect and mobile-first websites aligned with brand strategies resulting in a remarkable 30% traffic increase and a 20% reduction in bounce rates.
- Implemented SEO strategies while ensuring accessibility achieving a 15- position average ranking boost and 25% organic traffic growth.
- Orchestrated the seamless integration of email marketing systems, social media platforms, and analytics tools, leading to remarkable 30% reduction in customer acquisition costs and an impressive 20% boost in conversion rates.

Middle React Developer

Redberry (Tbilisi, Georgia · Freelance)

February 2022 - August 2022

- Stack:** JavaScript, React.js, Next.js, TypeScript, Docker, Ant Design, SASS, Redux Toolkit, Axios (Interceptors), Kanban, GitHub
- Led front-end development efforts for Agida.io a comprehensive marketing analysis tool.
- Participated in regular code reviews and contributed to the teams adoption of best practices in web development interfaces.

Front-end/UI Developer

Realtyna (Newark, Delaware, United States · Remote)

November 2019 - October 2021

- Stack:** JavaScript, jQuery, PHP, WordPress, Markup, SASS, UI/UX, SEO, Accessibility and WCAG 2.0, Scrum, SVN
- I have designed bespoke WordPress themes that seamlessly incorporate Realtyna Plugin functionality enhancing website performance and lead generation. This resulted in a 30% increase in lead conversion rates for our clients.
- My specialized website remediation efforts prioritize WCAG compliance and accessibility Through my work I've achieved WCAG Level AA compliance for clients improving user accessibility and increasing website traffic by 15%.
